

Remarks

Applicant has provided new claims 32 through 42 to particularize the structure of the inventive greenhouse cart rack and distinguish it from the several devices illustrated in the references cited by the Examiner. The claims contain subject matter found allowable by the Examiner.

Accordingly, Applicant believes that the Application is now in suitable form for allowance and that the objections of the Examiner based upon the cited references have been overcome. Reconsideration by the Examiner is respectfully requested and a Notice of Allowance solicited.

If the Examiner feels that a telephone conference with Applicant's attorney would advance the prosecution of the application, he is invited to call the undersigned at 901-537-1108.

Respectfully submitted,
